OUR PROCESS

RESEARCH/PROBLEM OVERVIEW

In Agtarise Solutions, we carry out detailed research based on the type of our clients' problems and needs. This is the first stage of every project we embark on. It takes care of on-site and off-site research and analysis of problem to be sure we fully understand the client's concerned and develop such into actionable steps to getting solutions to the problem in question.

PREMISE-CONSULTATION/ANALYSIS

This is the second stage of every process in meeting our clients needs in problem solving. In this stage, we visit our client in face to face meeting to capture the full details of the problem portrayed and proffer accurate solution as deemed fit.

PROJECT PLAN/CONTRACT BRIEF

Having carried out the detailed research and met with the client involved, we also put into a document the step by step strategy and approach to solving the problem in question.

IMPLEMENTATION

This is the last phase where we get started immediately on the project in view. We are solutions provider as portrayed in our company's name. We get our job done without any supervision. We are go-getters with laser-focussed approach.
